

Roots & Mane

## HOW TO USE YOUR ROOT TOUCH-UP KIT

1

Drape your neck with the enclosed towel.

2

Protect vanity and/or floor area with an old towel.

3

Make sure hair is clean, dry and free of root concealer temporary spray. Remove your jewelry.

4

Place paper towel to set color on top of.

5

Put gloves on and shake color to activate immediately before application. Make sure the color is free of lumps.

TIP: You may also need to use a small spatula to ensure color consistency is creamy and even.

6

Take a deep breath, you got this! Read on for next steps.

7

Place tint brush into bowl. While using rat tail comb, comb all hair back away from the face and paint the hairline first. Using the rat tail comb tip, make a part from your forehead back straight as far as you can. Split the hair and paint both sides of your part. Repeat the process horizontally all the way down to your ear. Then repeat on the opposite side. Also, don't forget the hairline behind your ears around the nape of your neck.

TIP: When removing your tint brush from the color bowl, always wipe one side of the brush clean. This stops dripping and helps you to work cleaner.

8

Use the enclosed cotton round with water to clean up the hairline to avoid stains on face and ears.

9

For grey coverage, let color process for 35 minutes from when you finish application. Base breaks blondes only process for 5 minutes.

10

Jump into the shower and shampoo your hair 2 times with your favorite salon shampoo and conditioner. Unless you have a Kerastase treatment, then read to next step.

TIP: Bring a cup into the shower with you to rinse the walls and floor of the shower once after the color has completely rinsed out.

11

If you have a Kerastase treatment enclosed, skip conditioner. When you are out of the shower and hair is towel dried, shake the treatment and spray from roots to ends. Comb through and then rinse after 5 minutes. You can certainly leave on longer!

12

You're done! You did it! We are so proud of you. You can dry & style your hair as usual.

# thank you for your purchase!

Roots & Mane isn't liable for any damage to personal belongings. You take full responsibility for your color kit once it leaves the salon, including the final results.

Please ensure your hair is clean, dry and free from any dry shampoo or root concealer for best results. Please follow the time guidelines, as we are not responsible for color not processing correctly due to color not being mixed/shaken thoroughly, not using the color within 4 hours of pickup, or leaving the color on too long or possibly not long enough. Please remember that if you've previously used box color or any other DIY hair dye/color on your hair, that may also affect the outcome of your color results. We want to ensure you get salon-like results and we are here to support you if you have any questions. Please contact us!

We hope you feel beautiful today!
